

Q: Will the safety fence work for my pool?

Water Warden™'s pool fence is designed to protect almost any shape or size pool. Installing the pool fence around freeform pools of over uneven surfaces is usually not a problem. Our professionals can determine the best location for your pool fence so as to make it as safe as possible for your family, while still maintaining a usable pool area.

Q: Will holes have to be drilled in my deck?

Yes. However, unlike other pool fences, which require drilling a large 1 1/4" hole in your deck, and necessitating the use of heavy professional equipment, the Water Warden™ Safety pool fence only requires a small, inconspicuous 5/8" inch holes to secure the fence poles into your deck. Additionally, the Water Warden™ installation kit includes attractive caps to fill the holes in your deck when fence is being stored.

Q: What are the advantages of a pool fence?

Removable fencing is appreciated by many families. While many caregivers opt to leave the Water Warden™ Safety Pool fence in place continuously when children are young, the entire pool fence can be easily removed in minutes and conveniently rolled up and stored for adult-only gatherings. Grandparents or other part-time caregivers enjoy the option of putting the fence up when young children are visiting, and removing it when there are no children nearby.

Q: How long will my safety fence last?

A Water Warden™ Safety Pool fence will last for years when properly cared for. Our sturdy poles and hardware are all non-rusting. The Meshylene fencing material is UV stabilized for protection from the sun. Additionally, every Water Warden™ Safety Pool fence comes with a 5 year warranty against defects in workmanship and materials.

Q: How convenient is it to have a safety fence?

The Water Warden™ Safety Pool fence is perfect for everyday pool use. It provides a tremendous level of safety to protect your children and pets from pool access, but it is incredibly easy and convenient for adults to use. Any number of sections can be quickly removed for cleaning or maintaining the pool. The optional self-closing rigid pool gates available from Water Warden™ makes it even easier to get to and protect your pool.

Q: Will a pool fence look nice?

The Water Warden™ Safety Pool fence is extremely unobtrusive and attractive when properly installed around an in-ground pool. Our fence is made of a top-of-the-line, see-through material so you will always be able to enjoy your pool's attractiveness.

Q: How strong is a pool safety fence?

The Water Warden™ Safety Pool fence is manufactured with the strongest and most superior materials available. Our reinforced fencing system exceeds ASTM standards for strength as well as for safety.

Q: Will the fence satisfy my local code requirements?

Unfortunately, Water Warden™ Pool Safety Products is unable to determine the suitability of its products for purposes of complying with any particular building codes. Please check with local governing agencies before you purchase for their specific requirements.

Q: How long will it take to get my pool fence?

Depending on your personal preference of shipping method and options, your pool safety fence will arrive anywhere from 1 day – 12 days.
