

PERFECT POOL WATER NATURALLY

EXCLUSIVE AQUALINK® INTERFACE FOR ULTIMATE CONVENIENCE

The AquaLink Control system brings complete control of all your pool and spa features conveniently indoors. Your AquaPure® system, as well as heating, lighting, spa and water features can all be monitored and controlled from the AquaLink. The AquaLink allows for adjustments to chlorine production levels, and monitors water temperatures daily while the AquaPure system is purifying your pool. Complete control — with a touch of a button.

ALL ZODIAC® POOL AND SPA PRODUCTS WORK SEAMLESSLY TOGETHER

The AquaLink Control System manages our complete line of technologically advanced products. The Zodiac system is designed to create a carefree backyard paradise — enhancing the overall pool and spa experience by delivering performance and reliability through technology.

Ei™ AQUAPURE® **Series**

AquaPure Ei

CONVERT YOUR ORDINARY POOL INTO A SALT WATER OASIS

AquaPure Ei delivers the ultimate swimming experience without the hassle. With simple do-it-yourself installation, in about 15 minutes you can have soft, silky water, free of the annoying and harmful effects of conventional chlorine. Using ordinary salt that is added to the pool water, the cell generates pure, natural sanitizer year-round. When the sanitizer has finished purifying the pool, it reverts back into salt and the whole cycle repeats, making AquaPure Ei a model of recycling efficiency.

The AquaPure Ei is simple to install, taking just three easy steps and requires zero pipe cutting. Simply drill the designated holes in the pipe with the template and drill bit provided, clamp the self-sealing cell kit around the pipe, and plug it in. That's it.

And since it sanitizes automatically, you'll spend less time worrying about your pool and more time enjoying it. Salt water sanitizing has never been this easy or affordable. So convert your ordinary pool into a salt water oasis today. Your family will thank you for it.

USER-FRIENDLY ELECTRONIC POWER PACK

- 120 volt plug-in convenience (PLG model)
- Automatic input voltage sensing for optimum performance
- LCD display and LED indicators make it easy to use

INNOVATIVE ELECTROLYTIC CELL

- Ingenious two-piece locking clamp design seals with a single locking ring for a quick installation
- Titanium electrode blades with a precious metal coating for the ultimate in durability
- Electronic water sensor for electrode protection
