EXCLUSIVE HIGH-PERFORMANCE
CUPRO NICKEL HEAT EXCHANGER

DURABLE YET LIGHTWEIGHT

Built with a durable cupro nickel heat exchanger as standard, H-Series 135,000 BTU heaters offer exceptional protection against corrosion and premature failure caused by unbalanced water chemistry, ensuring you get season after season of premium heating performance.

FAST AND EASY OPERATION

H-Series 135,000 BTU heaters boast industry-leading hydraulic performance coupled with faster speed-to-heat capability. Their intuitive electronic panel is also quick and easy to operate, so pool owners can spend less time messing with controls and more time relaxing in the water.

ENVIRONMENTALLY FRIENDLY DESIGN

Engineered with "totally managed" water flow, H-Series 135,000 BTU heaters save energy (and money) by reducing pump run time. Their low NOx emissions meet air quality standards in all low-NOx areas, so you can rest easy knowing their environmental impact is low.

TECHNICAL SPECIFICATIONS

MODEL NUMBER	H135ID1	H135IDP1
Gas	Natural	Propane
BTU/hr	135,000	
Thermal Efficiency	82%	
Heat Exchanger	Cupro Nickel	
Hot Surface Ignition	Silicon Nitride	
Combustion	Fan-Assisted	
Low NOx Emissions	Yes	
Digital Thermostat	Yes	
Remote Compatible	2-wire and 3-wire	
120 Volt Power Cord	Yes	
Water Connections	1½" Flex	
Gas Connection at Heater	¾"	
Installation Location	Outdoor ONLY	
Width (inches)	21½"	
Depth (inches)	29¾"	
Height (inches)	22½"	
Footprint Width (inches)	16¾"	
Footprint Depth (inches)	27⅝"	
Heater Weight (lbs)	100 lbs.	

Intuitive Electronic Panel is easy to read and operate.
