SUPERIOR PERFORMANCE

Climbs 90° sheer walls and easily negotiates tight corners.

Riveting Power and Agility.

Form and Function with Substance to Spare.

The Baracuda X7 Quattro™ is an inspired blend of sleek design and advanced technology resulting in unparalleled performance. From its innovative QTC Disc System™ (Quattro Traction Control) to a completely re-engineered "one moving part" Dura Life Diaphragm, the X7 Quattro™ stands alone as the cutting edge solution for pool cleaning. Powered by your pool's existing filtration system, the X7 Quattro™ has the agility to climb 90-degree sheer side walls and the mobility to navigate pool surfaces faster, quieter and more efficiently. Built to last, the X7 Quattro™ is well constructed from materials that will stand up to submersion in harsh chemical environments and perform tirelessly, 7 days a week, 365 days a year.

BARACUDA
The World's Simplest Automatic Pool Cleaners

X7
Quattro™

1. QTC Disc System™
The Quattro Traction Control System consists of four independent flexible discs that allow maximum adhesion on uneven surfaces and in tight corners.

2. Hydro Wings
This unique stabilizer enhances navigation, creates a downward force for additional traction and cleaning efficiency.

3. Flex Connector
Flexible hose attachment that minimizes the influence of the hose on the cleaner movement, thus improving coverage.

THE ANATOMY OF THE X7 QUATTRO

4. Dura Life Diaphragm
Designed with over-molded reinforcement for the ultimate in diaphragm durability.

5. Tilt Action Rudder
The body of the X7 Quattro™ is uniquely designed to swivel fully from left to right allowing for a new level of agility and mobility in navigating tight areas in the pool.

6. Twist Locking Hose
Provides secure connection and reduces vacuum loss.
